

# CONSOLE TABLE 648

DESIGNER: JOSEF FRANK, 1930'S

The so-called "Library Table" from the 1930s has a strict, timeless form with gently upturned edges. Josef Frank probably got his inspiration for this piece from China and Japan. The table is particularly suitable for magazines and books, which is why it has been called the Library Table.

## CARE INSTRUCTIONS

Svenskt Tenn's furniture is made from wood that is varnished or coated. Clean with a soft cloth dampened with mild dish detergent or soapy water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture.

At first, don't place objects such as vases, books and coasters on the table since this can lead to changes in colour of the surface. After that, avoid allowing objects to remain too long in the same place on the table since this might lead to darkening of the wood. In addition, avoid exposing the furniture to major changes in temperature and humidity.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
