

GLASS CABINET 2077

ESTRID ERICSON BELIEVED that a glass cabinet should contain a mix of the owner's most beloved items to give the observer a calming and captivating moment. Josef Frank designed his first glass cabinet in the beginning of the 1900s, including for East Asian Museum in Cologne. Glass cabinet 2077 is Josef Frank's last one, designed after his returning from the US in 1946. Despite its size, the cabinet has a light and graceful style.

DESIGN: Josef Frank / **HEIGHT:** 170 cm / **WIDTH:** 91 cm / **DEPTH:** 31 cm

GLASS CABINET 2077

MATERIAL Mahogany. Including three glass shelves, mirrored glass bottom.

CARE INSTRUCTIONS Svenskt Tenn's furniture is made from wood and then lacquered. The woodwork should be cleaned simply with a soft cloth dampened with mild dish detergent or soapy water. Make sure to dry it with a soft cloth.

Polish, oil or abrasive cleaners should never be used on the furniture. Never expose the furniture to prolonged humidity or direct heat. If an injury in the paint or wood occurs, you should immediately contact a furniture restorer. Often you can restore easier damage, but the damage is likely to worsen if not taken care of. Never move the furniture by dragging it across the floor.

The furniture lacquer can be damaged by direct heat and lengthy exposure to dampness. Keep in mind that water-filled vases can cause condensation.

Colour variations can occur if parts of the tabletop or other wood surfaces on furniture are covered early on with, for example, books or other items. It is therefore recommended that you not put vases or placemats and the like, on the tabletop for some time when the furniture is new. This will enable the wood to age evenly over a period of time. Avoid exposing your furniture to large changes in temperature and humidity, which can significantly affect natural movements of the wood.
