

# CABINET 881

DESIGNER: JOSEF FRANK, 1938

The drawing of cabinet 881 that Josef Frank did in 1938 was named "Cabinet With 21 Drawers", although there were only 19 drawers. Maybe Josef Frank decided at the last minute to make two larger drawers out of four small ones to balance the composition. The cabinet was displayed at the Josef Frank exhibition at the National Museum in Stockholm in 1952.

## CARE INSTRUCTIONS

Svenskt Tenn's furniture is made from wood that is varnished or coated. Clean with a soft cloth dampened with mild dish detergent or soapy water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture.

Avoid placing vases, books, placemats and the like, on the cabinet top when the furniture is new, as colour variations can occur on the surface. Also avoid exposing the furniture to large changes in temperature and humidity.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
