

TROLLEY 691 LINOLEUM

THIS STYLISH TEA TROLLEY was originally designed by Josef Frank in the late 1930s. The rectangular panels in walnut and linoleum are carried by a rack in cast iron, creating a floating feeling. For a practical and convenient usage, Joseph Frank chose the durable material linoleum, which he framed in vibrant walnut and added a handle wrapped in pale leather. The trolley was resumed in Svenskt Tenn's range in the early 2000s.

TROLLEY 691 LINOLEUM

MATERIAL Frame in lacquered iron. Three laminated shelves in linoleum and walnut. Handled in pale leather.

CARE INSTRUCTIONS Furniture with a linoleum surface should be carefully wiped with a soft and clean microfiber cloth. If necessary, wipe with a mild soapy water and then dry the surface.

Polish, oil or abrasive cleaners should never be used on the furniture. Never expose the furniture to prolonged humidity or direct heat. Never place a vase filled with water directly on the table as water-filled vases can cause condensation and damage the surface. Keep in mind that corrosion can occur in the steel if the varnish is damaged.
